

Large Venue AV Systems

Boyertown High School Stadium

J. Birney Crum Stadium

Pennridge Central Middle School

Large Venue AV Systems from Keystone Fire and Security

We offer large venue solutions that deliver consistent, high-performance sound, ideal for play-by-play announcements, where vocal clarity and wide-area coverage is essential. Enjoy exceptional audio quality from simple voice projection to more sophisticated systems, which provide clear intelligibility and music reproduction. Whether you're a spectator in the seating area or standing in the middle of the field of play, a Keystone Fire and Security system provides extended sound coverage from anywhere in the stadium.

Let our experienced engineers design a customized large venue AV solution for your specific needs and budget. Our staff of designers have over 75 years of combined experience, and hold certifications from SynAudCon, AVIXA and the NSCA. Our technicians participate in regular training from our manufacturers, and they will install and maintain your system to operate at peak level for years to come.

Keystone Fire and Security has provided hundreds of installed large venue sound systems since 1975.
